

Our story: You at the Center

Our objective has been since our founding to deliver quality services to make our customers successful and competitive in their industry. We have been in business since 2005, and with our gained experience at large multinationals, we understand how to develop seamless solutions for large to medium and small companies. From Engineering & IT to Technical Recruitment, to Vendor Management, or special initiatives ranging from cost out projects to building your center of excellence, we are your strategic partner.

Technical Recruiting

From basic recruiting to complex RPO, our recruiting services are flexible and designed from our framework to meet your needs to hire the best technical talent available on the market. Having the right talent is critical to excel in your industry and build products that can differentiate you from the competition.

Finding talent is a complicated journey; we can help you to sort it out. Our recipe is no secret: we sit, listen to you and your HR

team, then design a recruiting process that will meet your goals while delivering excellent candidates to enable your success.

Ask us how to help you optimize a recruiting program that will provide quality technical talent to strengthen your workforce.

Engineering & IT Outsourcing

Our services provide flexible solutions in software development, software consulting, IT-enabled services, and mechanical and electronics.

We consider our team as innovators and bridge builders between technology and business. We have more than 20 years of experience in international outsourcing and understand the pitfalls and the benefits of a robust Outsourcing program. We can build the right program to help you reach your business objectives, from availability and scalability to cost reduction.

Ask our consultants what strategies to employ on a limited budget.

We tailor our services to meet your strategic business needs

Vendor Management

Albelissa's Vendor Management offerings are optimized for vendor management advisory services and strategic outsourcing programs, with a strong network of people, knowledge, and resources.

Our background is in General Electric, the pioneers of successful strategic outsourcing and associated Vendor Management programs.

Vendor Management is a crucial function of advisory services, complementing our technical offerings in Engineering, R & R&D, and IT.

Ask us how we can assist you in assessing your vendor program and help you to get the most out of your vendor relationships.

Our Locations

Albelissa HQ is in Italy, with offices in Germany, Romania, and India. We have positioned ourselves where we can leverage local skills and provide scalability to our customers.

We consider our team as innovators and bridge builders between technology and business.

We can build the right program to help you reach your business objectives, from scalability to cost reduction.

Connect with Luca Leone at luca.leone@albelissa.com or call us at +49 89 2023 6990 to discuss how to optimize your budget by implementing the right mix of outsourcing and insourcing.
